

“Green is not an Option... It’s Our Survival!”

SUGGESTED MIXING INSTRUCTIONS FOR AGROGREEN PRODUCTS

Agrogreen 4-1-1 Fertilizer

- Dilute from 1:400 (2.5ml per litre) to 1:100 (10ml per litre)
- Soil Drench: 1:400 to 1:100
- Foliar Sprays: 1:200 (5ml per litre) to 1:100 (10ml per litre)
- For example @ 1:100, 1 litre of Agrogreen added to 100 litres of water will cover 1 acre. (1 litre covers 1 acre)

Agroblitz 6-4-4 Fertilizer

- Very similar to the Agrogreen but contains a higher concentration of neem oil.
- Dilute from 1:800 (1.25 ml per litre) to 1:300 (3.33 ml per litre)
- Soil Drench: 1:800 (.8 ml per litre) to 1:300 (3.3 ml per litre) For example @ 1:300, 330ml of Agroblitz added to 100 litres of water will cover 1 acre. (330ml covers 1 acre)

Agroklean Industrial Strength Cleaner

- Agroklean disinfects, deodorizes, degreases, decarbonizes and destroys germs, fungus, bacteria (including e-coli, salmonella, etc.) and viruses without the harsh odors of chemical based cleaners.
- Non-toxic and biodegradable
- Dilute from 1:100 (10 ml per litre) to 1:50 (20 ml per litre)
